# Continuous Energy Power of Türkiye for 28 years

**SAVE THE DATE**

**24-26 April 2024**  
**İstanbul Expo Center**

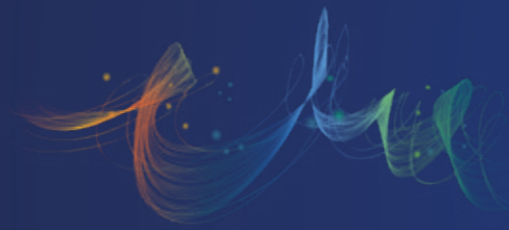

27<sup>th</sup> ICCI International Energy and Environment Fair and Conference organized by Sektörel Fuarçılık in cooperation with Turkish Cogeneration Association and with the support of Ministry of Energy and Natural Resources of Republic of Türkiye and Energy Market Regulatory Authority (EPDK) has brought together the energy sector between 24-26 May, 2023. The largest energy fair of Türkiye and the surrounding region has been a great success with more than 100 exhibitors and productive meetings they had.

The ICCI 2023 Conferences took place over the course of 3 days in 4 conference rooms and 40 sessions with the theme "Sustainable and Smart Transformation in Energy". The sessions discussed subjects that are closely related to the future of the global energy sector such as "Security of Supply in Electricity and Natural Gas", "The EU Green Deal, Renewable Energy Resource Guarantee System and Carbon Tax at the Border", "Cyber Security, Remote Monitoring Systems", and "Green Hydrogen" in Türkiye."

Foreign delegations showed interest to ICCI 2023 on the national level; there were attendance from the Ministries of Energy, Consulates, and Commercial Attache Embassies from Belgium, Brazil, Denmark, Croatia, Iranian, Italy, Poland, Russia, and Türkiye for 3 days.

**ICCI – International Energy and Environment Fair and Conference** will take place at İstanbul Expo Center, between **April 24-26, 2024** for the **28<sup>th</sup>** time next year. We are looking forward to meeting you to shape the future of energy.

# Why Should You Exhibit?

## ICCI 2024

ICCI, the networking platform of the sector hosted prominent names from the public, industrial and energy sector, and more than 16.500 professional visitors from 55 countries in 2023 edition. More than 100 national and international exhibitors that participated in the fair were satisfied with the high visitor profile and the conferences that were packed with visitors until the end of the last day in the fair. The fair that was organized by Sektörel Fuarçılık and Turkish Cogeneration Association had VIP guests from various ministries, associations and organizations from Poland, Belgium, Iranian, Italy, Croatia, Brazil, Denmark and Russia.

## How Can You Benefit from ICCI?

-  **Evaluate new business opportunities**
-  **Meet with energy investors**
-  **Showcase your new products and Technologies**
-  **Meet important decision makers in the industry**
-  **Build connections with new business partners**
-  **Improve your brand awareness**
-  **Maintain your customers' loyalty**
-  **Conduct market research**

# ICCI 2024

## Exhibitor Profile

-  Public Utilities
-  EPC Companies
-  Steam Turbines Importers and Manufacturers
-  Gas Turbines Importers and Manufacturers
-  Gas Engines Importers and Manufacturers
-  Wind Turbines Importers and Manufacturers
-  Solar Energy Panels and Technology Importers and Manufacturers
-  Hydro Turbines Importers and Manufacturers
-  Biomass Technology Companies
-  Licensed/Unlicensed Electricity Producers
-  Hydrogen Technology Companies
-  Biogas Technology Companies
-  Energy Storage Companies
-  Boiler Manufacturers
-  Compressor Manufacturers
-  Maintenance Companies
-  Automation Companies
-  Cooling Systems Chiller Manufacturers
-  Energy Sector Associations and Media
-  Energy Sector Engineering and Consulting Companies
-  Electrical Equipment and System Manufacturers
-  University/Academy Representatives

# Why Should You Visit?

## ICCI 2024

ICCI-International Energy and Environment Fair, which will take place for the **28<sup>th</sup>** time in Istanbul Expo Center Hall 1-3 between **24-26 April 2024**, is the biggest energy fair of Türkiye and the nearby geography, gathering all the stakeholders of the energy sector under one roof. ICCI, which is bringing the public sector, investors, industrialists and suppliers together, will showcase products and services in all subcategories of the sustainable energy including the wind, biomass, geothermal and solar as well as cogeneration, generation, transmission and distribution, maintenance and repair services at the power plants, environment technologies, energy efficiency, energy logistics, digitalization, energy storage, electric vehicle and charging technologies, smart grid and smart infrastructure, and cyber security in energy.

## How can you benefit from ICCI?

**Have the Opportunity to Meet One-on-One with Energy Public Decision Makers**

**Meet with Energy Investors**

**Have the Opportunity to Closely Examine Innovations and Technologies in Energy**

**Gain Information on Macro and Technical Issues on the Agenda of Energy with ICCI Conferences**

**Connect with New Suppliers and Business Partners**

# ICCI 2024

## Visitor Profile

**Public Utilities**

**Energy Investors**

*Cogeneration Investors  
Wind Energy Investors  
Solar Energy Investors  
Biomass Energy Investors  
Geothermal Energy Investors  
Nuclear Energy Investors*

**Hydrogen Investors**

**Industrial Factories Managers**

*Textile Factories  
Cement Factories  
Paint Factories  
Iron and Steel Factories  
Non-Metal Factories (Sand, Gravel, Clay, Marble) Factories  
Ceramic Factories  
Food and Beverage Factories  
Wood and Paper Manufacturing Factories  
Agricultural Factories*

**Licensed / Unlicensed Electricity Manufacturers**

**Electric Suppliers**

**Organized Industrial Zones (OSB)**

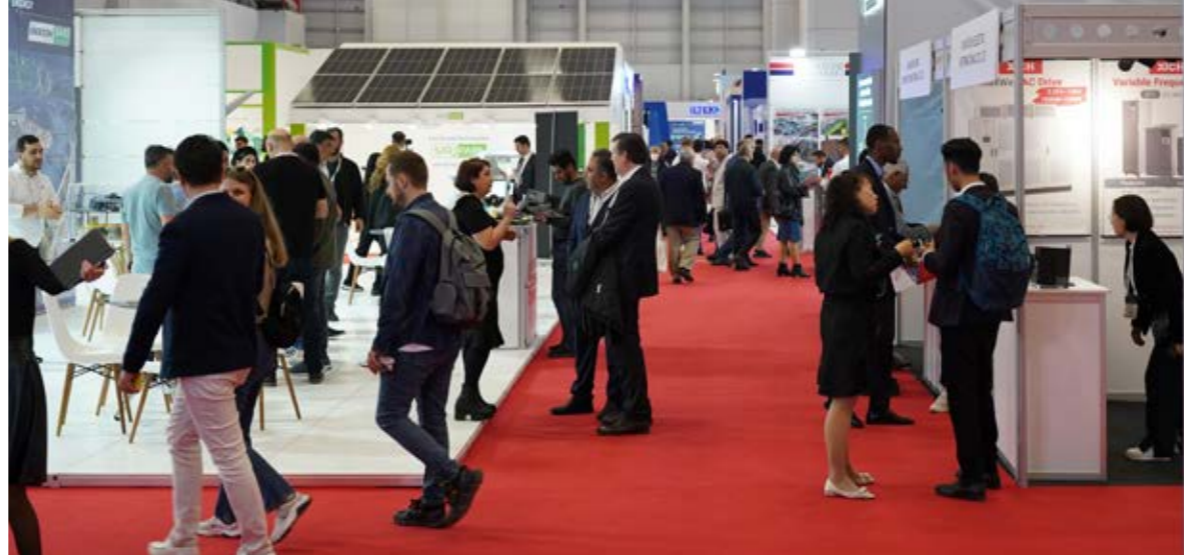

**Developers**

**Commercial Attachés and Embassies**

## Product Groups

### Generation Category:

- Wind
- Hydro Turbines
- Gas Turbines
- Diesel / Gas Motors
- Clean Coal Technologies
- Boilers / Steam Generators
- Steam Turbines
- Alternative Energy Systems

- Nuclear
- Cooling Systems / Condenser and Water Purification
- Air Quality Control / Emission Controls / Environmental Equipment & Services
- Instrumentation, Controls, Communication
- Ash / Sludge Handling
- Auxilliary Equipment

- Filters
- Design Engineering
- Sector Services
- Solid Fuel Handling
- Fuels Procurement & Services
- Maintenance
- Security Equipments

### Transmission & Distribution Category

- Transmission
- Communication
- Distribution & Substation Automation
- Geographic Information Systems (GIS)
- Hardware & Equipment
- Instruments & Control

- Customer Strategies & Technologies
- Metering
- Smart Cities
- Information Technologies and Programming
- Security, Cybersecurity & Protection

- Technical, Laboratory and Computer Services
- Test & Measurement Equipment
- Training
- Security and Personal Protection
- Transportation

# What Did They Say About ICCI 2023?

**“ Cem Özkök**  
GÜYAD, Chairman of the Board

People are curious about Türkiye, they want to invest in Türkiye, and Turkish investors also want to invest abroad with foreigners. Whether it is about finance or production, all issues are being discussed and going well. ”

**“ Neslihan Tok**  
Türkiye Communications and Sustainability Group Manager

This is an extremely comprehensive event where the heart of the energy sector beats. It is already being held for the 27th time this year. I recommend that anyone interested in discussing the past, present, and future of energy should attend on the 2nd and 3rd days as well. It's a great platform. ”

**“ Erbil Büyükbay**  
İstanbul Chamber of Industry, Manager, Manager Environment and Energy Department

ICCI is one of the most important fairs in the sector. I had the opportunity to attend both as a speaker and to explore. I think it is very important for the industry network and I wish them continuous success. Thank you very much. ”

**“ Altuğ Karataş – MÜSiAD, Member of Board**

I have been attending ICCI for many years. We have important opportunities with ICCI, such as bringing together the energy sector, increasing networking and communication, and even getting together with people we haven't seen for years. In addition to this network, it creates a tremendous interaction, communication and development related to business. We talk about the developing renewable energy and even new sources and new technologies. Looking at it from this perspective, I see ICCI as a highly productive, effective and beautiful organization that not only allows us to acquire knowledge but also increases our communication and expands our trade volume. Moreover, it may also create opportunities for participant companies to develop their trade among themselves. ”

**“ İzzet Alagöz**  
General Manager of EÜAŞ Electricity Generation Joint Stock Company

The ICCI Fair has left positive marks within the industry throughout the years. I am one of the believers that these should continue to increase. Therefore, I am excited to participate in every ICCI Fair, and I will continue to do so for as long as I live. ”

**“ İskender Kökey**  
TÜREB, Secretary General

ICCI is an event that we have been excitedly attending since the first day of the industry, bringing the industry together. We are extremely happy to be together again in 2023. Here, we had the opportunity to come together with our industry stakeholders, discuss our common problems, listen to any new news together, and evaluate them. As every year, ICCI did its part this year as well, and we are here with great pleasure. Thank you. ”

# What Did They Say About ICCI 2023?

**“ Serdar Ekiz**  
GÜNEŞDER, Chairman

The ICCI Fair is the biggest fair that shapes the energy sector in Türkiye. In this regard, I have benefited greatly from it during my career development process. I have made sure to attend every year. This year is the 27th edition, and the world is changing. In this sense, necessary changes have also been reflected here. I wish ICCI continuous success for greater achievements and bigger steps in the future. ”

**“ Yaşar Esen**  
Smart Solar Technologies, Business Development Director

I wish all the success for the ICCI fair. I believe that it is a very beneficial conference and a very productive fair for our country, so I thank the entire organization very much. ”

**“ Alkım Bağ Güllü**  
SHURA Energy, Transition Center Director

Especially in terms of diversifying the topics, this year was quite good. Because the energy sector in Türkiye is undergoing a serious transformation. This year, there were really different and beautiful conferences and presentations in terms of energy transformation, especially in the field of new technologies, in the program of ICCI, and there were participants from both the public and private sectors, as well as other academic and civil society organizations. In that sense, I can say that it was quite satisfying. ”

**“ Tayfun Bayraktar**  
Enerco, Sales and After Sales Director

It's good to have the opportunity to meet with all industry stakeholders and investors at once in such an organization at least once a year. People get away from the office environment a little and evaluate the industry together here. We are already regular ICCI exhibitor. We will also be at the fair with our booth in the future years. ”

**“ Pengfei (Enis) Jian**  
Goldwind Türkiye, Business Development Manager

We are participating in the ICCI Fair for the first time. It is a really important stage for us, after all, Goldwin Turkey has been present in Turkey since 2017, but in those years we want to highlight ourselves and introduce ourselves, especially on such an important platform like ICCI. It is a very good and important organization, and we hope to participate again next year. Thanks to everyone who organized this event, well done! ”

**“ Sarper Saraçoğlu**  
Enerjisa, Sales Manager at Customer Solutions

It was a great panel. Everything realised smoothly in terms of organization, it was very well organized, and the interest of the participants was very high, so it was a pleasant panel and a great fair. ”

## ICCI 2024 Venue Plan

ICCI 2024 will be at İstanbul Expo Center Hall 1-3 in 2024, Providing Energy to the Sector

ICCI 2024 will be the focus of the energy sector at the İstanbul Expo Center, the largest exhibition center of Türkiye, in its renovated halls. With its close proximity to the airport and the surrounding roads, metro, and the presence of parking areas, landscape and excellent infrastructure, İstanbul Expo Center will be a point of attraction for hundreds of domestic and international visitors.

### Transportation Options:

#### Metrobus

You can reach the fairground with the Metrobus from Zincirlikuyu, Mecidiyeköy and Avcılar, which is a fast mode of transportation. Using the 34A metrobus line, you can transfer to the Airport metro from Şirinevler station and get off at the World Trade Center/İstanbul Expo Center station and walk to the fairground.

#### Metro

Aksaray-Airport metro line passes through the İstanbul World Trade Center/İstanbul Expo Center complex. It is possible to transfer to the Airport metro line from Zeytinburnu or Şirinevler metrobus stops.

#### Bus

IETT's 96T bus line transports passengers between Taksim and Atatürk Airport. The bus departs from Taksim following the coastal route of Şişhane, Unkapanı, Aksaray, Yenikapı, Zeytinburnu and Bakırköy, and passes through Ataköy and İstanbul Expo Center right before reaching the airport.

#### Sea Bus

If you are on the Anatolian side and want to reach the fairground from Kadıköy and Bostancı, you can use the İDO Sea Bus from Kadıköy and Bostancı to Bakırköy. Detailed information: [www.ido.com.tr](http://www.ido.com.tr)

#### Car

You can reach the fairground by road using three different arteries: E5, TEM and through the Coast (Sahil Yolu in Turkish).

## CONTACT US!

Do not miss the opportunity to attend the biggest international energy fair of Türkiye and the surrounding region, **ICCI 2024 International Energy and Environment Fair and Conference**, to see the newest innovations in the sector, to network and create new business contacts, and to join the debate about shaping future of energy.
